Manual Creator Ops Kills SaaS Velocity

OPERATIONAL BOTTLENECK DETECTED

Spreadsheets ---------- Manual Payouts ---------- Lost Attribution

High operational friction prevents scaling creator partnerships

Engineers build custom internal tools instead of core features. Growth engineering gets blocked by manual administration.

SWIPE TO SEE COST BREAKDOWN →

40+ Hours Wasted Every Single Campaign

WEEKLY TIME WASTE

Manual Creator Vetting & Outreach	18 hrs
Spreadsheet Link & Code Management	12 hrs
Manual PayPal & Wire Payouts	10+ hrs

Manual creator vetting, scattered tracking links, and payout headaches drain high-value engineering resources.
