REPURPOSING RECIPES

The 1-to-10 Repurposing Architecture

Stop recording for 1 hour and posting only 1 link. Here is the exact pipeline growth engineers use to turn 1 raw recording into 10 platform-specific assets in under 3 minutes.

REPURPOSING RECIPES

Step 1: Ingestion & Extraction

Drop your raw audio or video transcript into the IncuBrix Thought Inbox. The engine automatically normalizes text and clusters the transcript into 5 core narrative pillars.

REPURPOSING RECIPES

Step 2: Layer 1 (Viral Top-of-Funnel)

Extract three 9:16 vertical short videos (under 60s) with burned-in dynamic captions for YouTube Shorts and Instagram Reels to capture cold organic reach.

REPURPOSING RECIPES

Step 3: Layer 2 (Thought Leadership)

Transform technical frameworks into two 5-slide educational PDF carousels for LinkedIn to maximize dwell time and high-intent professional bookmarks.

REPURPOSING RECIPES

Step 4: Layer 3 & Distribution

Generate five punchy text/graphic posts with tracked UTM links and schedule across all 3 platforms directly via IncuBrix /publishing. Automate your pipeline at incubrix.com.
